

How to Clear the Java Cache

Windows

1. On the client workstation, exit PowerTeacher Gradebook.
2. Navigate to **Control Panel > Java**. The Java Control Panel appears.
3. Select the **General** tab.
4. Click **Settings** under the Temporary Internet Files section. The Temporary Files Settings dialog appears.
5. Click **Delete Files**. The Delete Temporary Files dialog appears.
6. Select both checkboxes, and click **OK**.
7. Close the Java Control Panel.
8. Launch PowerTeacher Gradebook.
