

High School Planning Guide for Parents and Students

Academic and Career Planning

- Get involved in extra-curricular activities; colleges look for well-rounded students. Explore your interests and develop your leadership skills.
- Volunteer! It's a great way to get involved in school and the community!
- Get an after-school or summer job; a job helps develop responsibility (a characteristic colleges look at) and it gives you \$\$\$!
- Explore your career options often and early; talk to your parents, school counselors, and other professionals. Do research to see which careers are in demand and which careers spark your interest.
- Take your classes seriously! This is it - college acceptance, financial aid, scholarships - everything depends on your GPA. Remember - EVERY class you take counts.
- Take the PSAT. You will take the SAT and/or the ACT your junior year, but you need to prepare now! A high SAT/ACT score will increase your chances of receiving scholarships and getting into the college you want!
