

ENERGY CLUB NEWS

“Do the Earth a favor. Be a power saver!!”

The **Ten Oaks Middle School Energy Club** works to educate our students, staff, and community on WISE use of energy and the importance of energy efficiency. We promote energy conservation, reduction of waste, and environmental literacy among our students, staff, and community. To conserve energy, our Staff participates in “Shutdowns” over long breaks and weekends as well as normal weekends throughout the year. Club members patrol the school regularly to monitor energy consumption. Students plan and participate in various activities at school as well as in the community to increase energy awareness.

Parents, please be on the lookout this week for paperwork pertaining to our DOT (Doing One Thing) campaign. Please have discussion with your family concerning one thing you could do to help save energy at home.

Thanks much,

Energy Club
