

Technology Fee

Planning on using a school-issued digital device for the 2021-2022 school year?

All K-12 HCS Virtual students who plan on using a school-issued digital device should inquire with their base school to find out the dates of issuance.

K-12 HCS Virtual students will need to pay a \$25 technology fee for the full academic year, due at the time the student receives the device.

The non-refundable fee may be paid online or in-person at the appropriate base school.

Please visit the HCS web page for more information about what the technology fee covers.
