RE: Seaside Elementary After-school Stingray Program

Dear SSE Families:

As you well know, many aspects of our lives are much different because of the pandemic. The planning, preparation and logistics for this school year have been greatly impacted. One program that will be adversely impacted by present circumstances is our Stingray Club after-school program. The Stingray Club is a self-supporting enterprise relying solely on revenue generated to fund all operating expenses. A revenue/expense analysis was completed. Based on the fact that we may very well operate on a full distance learning model or a hybrid model, revenue would not be sufficient to operate the program. Therefore, **the Stingray Club after-school program will be suspended until further notice.**

Sincerely,

Robert J. Homer

Principal
