

HCS Standard Practice on administering tests to outside student:

It is not our practice to administer assessments for students not currently enrolled in Horry County Schools (examples: Explore, PLAN, PSAT, etc.). Each year we receive numerous inquiries asking if we can administer assessments for non-Horry County School students who are enrolled in other options such as home schools not approved by the Horry County Board of Education, private schools, and the South Carolina Charter School District. Considering the hundreds of students in Horry County that are enrolled in other options, we currently do not have the staff nor the capacity to operate as test administration centers for students not enrolled in our system. Therefore, we maintain our standard practice that Horry County Schools does not offer assessment testing to students who are not currently enrolled within our schools.
